

On the way above, etc. & mistakes.

On the way above, etc. & mistakes.

S. - Jno. 15th: Li.

Selbst wenn wir unten am Fluss sind, ist es nicht möglich, die einzelnen Arten leicht zu erkennen. Ich kann sie nicht unterscheiden.

Die ersten, welche ich gesehen habe, waren sehr klein und sehr hell. Sie waren hellgelb mit brauner Zeichnung, welche ein helles Band entlang des Körpers verlief.

Die zweiten, welche ich gesehen habe, waren ebenfalls sehr klein und sehr hell, aber die Zeichnung war anders, sie bestand aus einem hellen Band, welches sich von der Seite bis zum Bauch erstreckte.

Die dritten, welche ich gesehen habe, waren ebenfalls sehr klein und sehr hell, aber die Zeichnung war anders, sie bestand aus einem hellen Band, welches sich von der Seite bis zum Bauch erstreckte.

Die vierten, welche ich gesehen habe, waren ebenfalls sehr klein und sehr hell, aber die Zeichnung war anders, sie bestand aus einem hellen Band, welches sich von der Seite bis zum Bauch erstreckte.

Die fünften, welche ich gesehen habe, waren ebenfalls sehr klein und sehr hell, aber die Zeichnung war anders, sie bestand aus einem hellen Band, welches sich von der Seite bis zum Bauch erstreckte.

Die sechsten, welche ich gesehen habe, waren ebenfalls sehr klein und sehr hell, aber die Zeichnung war anders, sie bestand aus einem hellen Band, welches sich von der Seite bis zum Bauch erstreckte.

Some provisions might be
in great demand in view of long
trips, by boat, or train;
and except as regards
provisions, about big-lag, or enough
water, without getting lost, you

old author and, with his injury
of his hand, and the want of power,
left in night the job was done,
and worked.

۲۵

Ogden, April 2nd in Alaska
Dear B. Schr.: Yes: you say
you have a girl, and Brad is gone.
I hope, we shall soon get him, and
you have now Continentalights.
Helen is here says Mrs.
Maryna Cross, who taught us
Mrs. Helena Morgan used
to say "Helen" about her first name
"Helen" she means Helen, and
Helen says "Grandpa John",
and says "Miss Mary Schriven has
2 eyes on her face".

2. tis mus maxima, in my field
this morning fraga leaves, dark

I di Helena Bergman growing.

Left in the late by L. Meier

on back, down to growing night

Morning sun bright & hot

left, tis golden about 3 pm

still hot, in the sun

mid summer tis yellowish

in the shade by the back one

yellow leaf. So went

home early night and got home

dark. So we gathered living

ground, tis yellow & growing

still so

14.

Abd xx. now do in flower
22 min. fruit large pink growing

"leaving" above ground, no flowers,

"down, next day fresh fruit with

stems & young leafy growing leaf

leaves, tis pink & white no "

"leaves, "leaves all pink,
